

This document presents essential investor details regarding this fund, distinct from market content. It is mandated by regulations to facilitate your comprehension of the fund's characteristics and associated risks. We strongly recommend reviewing it to enable an informed investment decision.

INVESTMENT OBJECTIVE

OBJECTIVE

The investment objective of the Arvocap Global Equity Special Fund is to attain risk-adjusted returns surpassing the market average by investing in high-value, highly liquid stocks tracked by the MSCI World Index. It seeks to accumulate capital through a mid-to-long-term perspective on equities offering high returns and strategic positioning.

INVESTMENT POLICY

The fund's investment strategy involves actively managing asset allocation within an equity portfolio of listed equities across the world. The fund strategy is geared towards buying into businesses that have consistent high returns on invested capital. A key consideration for the portfolio assets is the shape of their balance sheets, with the fund allocating capital only to businesses that maintain strong balance sheets, require low leverage to fund operations and can cushion themselves and show resilience during economic headwinds. Cash and cash equivalents are utilized as a control tool between trades to ensure effective portfolio management.

The book value of an investment in a single security or any single issuer are limited to 25% of the fund's net asset value. These restrictions, outlined in the Information Memorandum, must be followed at all times, with a 5% allowance for breaches due to portfolio appreciation.

Units in this fund accumulate income, wherein any generated income from underlying products accrues to the unit holder in the form of new units. Regular monthly reports, presented as fact sheets, offer Unit Holders insights into investment activity, performance, and changes within the Arvocap Global Equity Special Fund's Portfolio, as managed by the Fund Manager. The fund benchmarks its performance against the MSCI Global Index.

You can sell your shares any day (except Saturday or Sunday) that banks are open in Nairobi, Kenya.

Recommendation: The Fund is suitable for investors with a time horizon of 5 years and above.

RISK AND REWARD PROFILE

WHY THE FUND IS CATEGORY 6?

The fund is rated category 6 due to its exposure to equities/shares and the inherent nature of equities prices characteristics and their risks as outlined below. The factors below have an impact on the value of investments and expose the fund to potential losses.

The price of shares and any income derived from them such as dividends may rise and fall and the investors when liquidating may not get back an equal amount to what they have invested.

It may be difficult for a fund to liquidate or redeem its underlying assets in a short notice during extreme market conditions without suffering a loss.

The fund invests in different global markets and the global currency fluctuations may have an impact on the fund.

Investing may lead to payment of additional fees and expenses in relation to the fund executing its trades.

WHAT THE NUMBERS MEAN

The numbers rate how the fund will behave and how much risk there is to your invested capital. Generally, in markets the chance to make large gains means a risk of suffering higher losses.

Risk category 1:

A category 1 fund is not a risk-free investment. It means the risk of losing your invested capital is small, but also the risk of making gains is small.

Risk category 7:

In a category 7 fund, the potential for huge returns is high but also the risk of losing your money is also high.

Note: The seven-category risk scale (The Synthetic Risk and Reward Indicator, SRRI, series) is a complex undertaking and a scale category of 2 does not imply that it is twice as risky as category 1 risk.

Additional risks to the fund have been outlined in the supplementary information memorandum of the fund in addition to the risks outlined in the Arvocap Unit Trust Scheme Information Memorandum.

CHARGES

These charges are used to pay the administrative costs of running the Fund, including the costs of cloud computing, system maintenance marketing, research, subscriptions and selling. Overall, they reduce the growth of your investment.

ONE OFF CHARGES BEFORE YOU INVEST

Entry Charge	0.5% Initial Fee
--------------	------------------

Exit Charge	0
-------------	---

CHARGES TAKEN FROM THE FUND OVER A YEAR

Fund Management Fees	2.0% of AUM per annum in management fees
----------------------	--

CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

Performance Fee	20% of the total annual net return after subtracting all expense ratios of the average assets under management
-----------------	--

The entry and exit charges shown are the maximum figures. In some cases, you might pay less - you can find this out from your financial adviser.

The fund management fee is a fixed charge and is same year to year unless changed through an amendment of the information memorandum upon the Authority's approval. This figure excludes portfolio transaction costs, which may vary from year to year based on trading activity in the portfolio.

You can find out more details about the charges by looking at the Fees" section of the Information Memorandum and read together with Supplementary Information Memorandum.
